POTATO BREAD AND ROLLS.

Boiled Potatoes Substituted for Part of Flour Makes an Appetizing Product.

Excellent bread can be made by using three pounds of boiled and mashed potato and two and one-fourth pounds of good bread flour, according to the baking specialists of the U. S. department of agriculture. The bread so compounded has a rich brown crust and tender and elastic crumb. It has an appetizing odor and a very agreeable taste, which is preferred by many to that of bread made wholly from flour. When made according to the directions given below, potato bread contains more mineral matter, fiber and moisture, but otherwise in composition and nutritive value is practically the same as ordinary bread. Its higher moisture content helps to keep it fresh several days longer than ordinary bread. In localities where there is a surplus of potatoes or where they are very cheap, potato bread costs less to make than all-flour bread. This would prove an excellent way in which to utilize cull potatoes. Even, however, where the relative market prices of potatoes and flour are such that there is no economy in substituting potato for flour, the individual flavor and keeping quality of potato bread make it desirable as a variant in the family diet.

Potato bread as known abroad is made generally with potato flour, about 10 parts of this commonly being used with 90 parts of wheat flour or a mixture of rye and wheat flours. As potato flour and dried potato flakes are not accessible to the American housewife, the specialists conducted a series of successful experiments in using boiled potatoes with flour. It was found that a mixture of boiled potatoes and wheat flour, in the proportions given in the accompanying recipe, gave a very desirable loaf, a trifle smaller than that made from all flour, but wholesome and nutritious. Figure to a basis of equal moisture content, the boiled potato would represent 25 per cent and the flour 75 per cent of the mixture.

Phosphate Rock in 1915.

The annual statement of the geological survey, department of the interior, on phosphate rock in 1915, with an added chapter giving simple tests for phosphate, is now available for distribution. The phosphate rock marketed in the United States during the year is stated at 1,835,667 long tons, valued at \$5,413,440.

Quicksilver in 1915.

The geological survey, department of the interior, now has available for distribution its annual statement on quicksilver in 1915. The output of quicksilver in the United States during the year is given as 21,033 flasks of 75 pounds each, valued at \$1,826,912.

GERMANS DENY BOY-ED STORY

"Ridiculous," Is Comment on the Story from Washington

IT IS SAID U-53 IS STILL HERE

The Providence "Journal" Quoted Letter from Germany

Washington, Oct. 25.—"Ridiculous" was the only comment Prince Hatzfeldt, counselor of the German embassy, offered yesterday on a Providence, R. I., story purporting to relate the details of plans for a German submarine campaign on the United States coast.

The information was said by the Providence Journal to have come from the embassy itself.

Of the statement that United States destroyers played into the U-53's hands in going out to rescue passengers and crews from the torpedoed ships, Acting Secretary of the Navy Roosevelt said: "The destroyers went out in response to a wireless call from the West Point, one of the torpedoed ships. They didn't know what had happened to it. They obeyed an 'S. O. S.' call as would any other ship."

Providence, R. I., Oct. 25.—That Capt. Boy-Ed, debarred German naval attaché of the Washington embassy, despatched the U-53 and two other submarines here to force a ruling on their activities was stated by the Providence Journal yesterday.

Further, that paper stated that the U-53, the U-46 and U-61 are still in American waters.

In support of its claims, The Journal presented a letter said to have been written by Boy-Ed and containing the following paragraph:

"In order to ascertain where we stand we must therefore force the issue and see to what extent America is willing to carry out her alleged humanitarian ideals by helping us to save the lives of those whose ships we destroy in the coming campaign in the western Atlantic."

After the U-53 docked at Newport, strange wireless code messages, sent out from Nauen, undoubtedly conveyed instructions to her, The Journal declared.

The newspaper also printed what purports to be the substance of remarks made by Ambassador Von Bernstorff at a conference after the exploits of the U-53 off Nantucket. The ambassador is represented as expressing his satisfaction that the United States navy can be relied on to save life in American waters, thus enabling the German submarines to torpedo indiscriminately without reference to the claims of humanity.

WILSON AND GERARD HAVE A CONFERENCE

Discuss German Matters—First Meeting Since the War Began.

Long Branch, N. J., Oct. 25.—James W. Gerard, American ambassador to Germany, had luncheon yesterday with President Wilson at Shadow Lawn and the two spent most of the afternoon in conference. It was the first meeting between the president and his envoy to the Kaiser's country since the war began.

Before yesterday's conference Mr. Gerard said he bore no official communication from Germany to the president, either on the submarine or peace questions, but he said he expected to have a full discussion of both topics before the end of the conference.

The ambassador said it was uncertain when he would return to his post in Berlin. He would not go before election, he said, and after that much depends on the sailing of ships, as he must take a vessel that does not touch England. It would be bad form for Gerard to sail on a vessel touching the shores of one of Germany's enemies.

The ambassador said he would take no part in the election campaign.

CAUGHT IN ENDLESS CHAIN.

Minneapolis Postmaster Wants Someone to Help Him.

Minneapolis, Oct. 25.—Postmaster Purdy of Minneapolis wishes he could devise some means of stemming the flow of letters, each containing a dime, which is pouring into his office. Thousands of letters with the dime enclosed have been received here from women in all parts of the country who have joined in an "endless chain" scheme which they believe will bring them a "new 1917 model petticoat." Twenty-five thousand letters were received Monday.

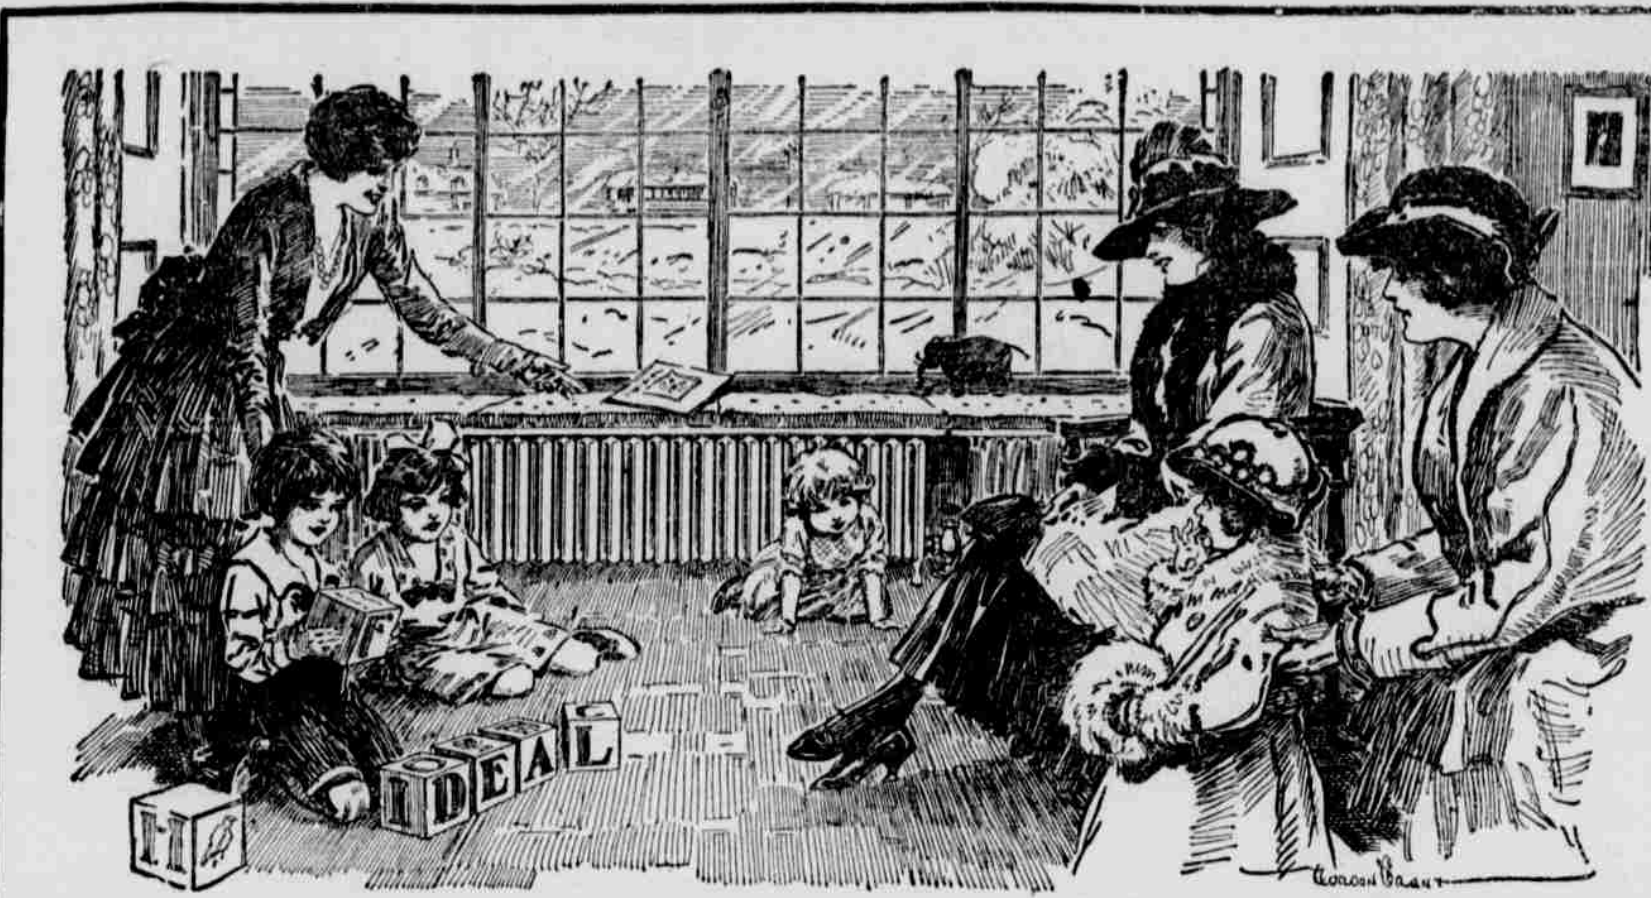

The scheme was promoted by the National Brokerage Exchange until federal agents got on their trail. A room in a local street to which all the letters are addressed was vacated some three weeks ago. Many of the letters have been returned to the writers, but a large majority carry no return marks. As a result the dead letter office is becoming clogged. The National Brokerage Exchange promises to send a petticoat to every woman who would send 10 cents in silver and write five friends urging them to join in the "chain."

EVEN MONEY NOW.

Democratic Cash Is More Abundant in Wall Street.

New York, Oct. 25.—Even money is now being wagered in Wall street that Wilson will continue in the White House for another term. The best that Wilson backers were willing to do Monday was to put up \$9 for every \$10 of Hughes money, and less than a week ago Hughes was a 10 to 8 favorite. At one time Hughes was a 2 to 1 choice.

The largest wager reported yesterday was one of \$5,000 at even money. Curb betting commissioners report that there is an abundance of money offered on both Hughes and Wilson, although yesterday Wilson money seemed to be in the preponderance. Indications are that he will be the favorite in a few days.

Topics of the Home and Household.

A mixture of one-third glycerine and two-thirds rosewater agrees with most skins and is excellent for chapped hands and face.

Lime water applied to chitblains several times a day is said to be quite soothing.

For dandruff, rub well into the scalp the yolk of an egg. This combines with the grease of the scalp so that, after washing the hair well with Castile soap and warm water, the scalp is thoroughly cleansed. Follow this by rinsing with cool water, and dry with soft, warm towels, rubbing the scalp briskly to stimulate the circulation.

Students as Houseworkers.

Alumnus of the University of Washington have organized a committee to help find employment for the hundreds of university girls who must earn part of their college expenses. They are making a special appeal to Seattle housekeepers. Some of the girls who come to the university make their board and room by doing housework. Others serve dinners and work in the kitchen. Quite a large

WORRY IS A DISEASE

The disorder which causes its victims to worry whether they have anything to worry about or not is neurasthenia. Neurasthenia is entirely distinct from hysteria although the patient may have both diseases at the same time.

Neurasthenia often results from some nervous shock, such as the loss of a near relative, business reverses, or some severe overstrain on the nervous system. The patient is usually pale, showing that the blood is thin, and the first thing to do is to build up the blood because anything that builds up the general health helps to correct the neurasthenic condition. Rest and a good tonic is the very best treatment in most cases.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants. The Dr. Williams' Medicine Company, Schenectady, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia, in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.

A woman never looks better than her Hair

Thousands of women owe their youthful appearance to NEWBRO'S HERPICIDE. No matter what may be her age, a woman with a nice head of hair, hair that is soft, glossy and fluffy, always looks younger than she is.

HERPICIDE makes the hair beautiful with that sheen and shimmer which is so attractive and always indicates a healthy, natural growth. It keeps the scalp free from dandruff and the hair from falling out.

There are remedies said to be "just as good," but HERPICIDE is "the genuine original dandruff germ destroyer."

Newbro's Herpicide in 50c and \$1.00 sizes is sold at all drug stores and toilet goods counters. Guaranteed by The Herpicide Co. Recommended and applications made by the best barbers and hair dressers.

are especially desirable. When these are used the pie may be served in the baking dish without the sometimes disastrous operation of changing from the baking to the serving dish. In addition to this advantage the glass dishes are easier to keep clean and wear as well as the customary tinware.

Squash Pie—One and one-fourth cups of steamed and strained squash, one-fourth of a cup of sugar, one-half a teaspoon of salt, one-fourth a teaspoon of cinnamon, ginger or nutmeg, or one-half a teaspoon of lemon extract and a little milk. Mix the sugar, salt, and spice or extract, add the squash, the egg, slightly beaten and the milk.

Pumpkin Pie—Line a pieplate with a plain pie paste. For filling mix one and one-half cups of stewed and strained pumpkin, one and one-half cups of milk, one egg, three-fourths of a cup of brown sugar, one tablespoon of butter and a half teaspoon each of salt and ginger and one teaspoon of cinnamon.

Cranberry Pie—Use a plain paste and fill with two cups of cranberries, one and one-half cups of sugar, one-quarter of a cup of water and one tablespoon of butter. Cranberry pie may be covered with an upper crust or with a lattice of pastry strips.

Citron Pie—For filling for citron pie mix two cups of seeded raisins, chopped, two cups of citron chopped, one and one-half cups of sugar, grated rind of one lemon, four tablespoons of lemon juice and one-eighth teaspoon of salt.

Cocoanut Pie—Line a pie plate with plain paste and fill with a mixture composed of two cups of milk, three egg yolks, one-half a cup of sugar, two tablespoons of cornstarch, one cup of grated cocoanut, one-fourth teaspoon of salt, grated rind and juice of one lemon and one tablespoon of butter.

Plain Apple Pie—Fill two crusts with apples sliced thin, using enough to make the pie at least an inch thick when done. Add a little water to the apples and cover with a top crust which is a little richer than the under one. This is done by folding bits of butter into the top crust in rolling it out. When the pie is baked and while it is still hot, lift off the top crust and add sugar, nutmeg and a little butter. Replace the crust and dust it with a little powdered sugar. Apple pies seasoned in this way are better than when the seasoning is added before baking. Serve hot with cheese.

Lemon Pie—Mix a rather rich pastry and for a filling mix three tablespoons of cornstarch with one cup of sugar; add one cup of boiling water and boil five minutes. Add two tablespoons of butter, the grated rind of half and the juice of one lemon, and one well beaten egg. Turn onto the crust and bake until the crust is done. Cool and cover with a meringue made with the whites of two eggs, two tablespoons of powdered sugar and one teaspoon of lemon juice. Pipe the meringue on lightly and color a delicate brown. If preferred, cover with the pastry.

Silver, Gold, Copper, Lead and Zinc in California and Oregon, 1915.

The annual statement on gold, silver, copper, lead, and zinc in California and Oregon, issued by the geological survey, department of the interior, is now available for distribution for 1915.

MOTHER TELLS HOW VINOL Made Her Delicate Boy Strong

New York City.—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles, and there seemed no hope of saving his life. The doctor prescribed cod liver oil but he could not take it. I decided to try Vinol—and with splendid results. It seemed to agree with him so that now he is a strong, healthy boy."—Mrs. Thomas Fitzgerald, 1090 Park avenue, New York City.

We guarantee Vinol, which contains beef and cod liver peptones, iron and manganese, phosphates, and glycerophosphates, for run-down conditions, chronic coughs, colds and bronchitis. Red Cross Pharmacy, Floyd G. Russell, Prop., Barre, also at the leading drug store in all Vermont towns.—Adv.

DO YOUR HANDS ITCH AND BURN

Because of Eczemas, Rashes, Chaps, Itchings, Etc.? If So
